LIMITED MANUFACTURER’S WARRANTY

LIMITED WARRANTY
Double Coin Radial TBR (Truck and Bus Radial) Tire
Limited Manufacturers Warranty January 1, 2017

TO OBTAIN AN ADJUSTMENT

- You must present the tire to be adjusted to a current Double Coin Commercial TBR Tire Dealer. (Please consult your telephone directory for locations or advertised selling price of a comparable tire, plus an amount equal to the full current Federal Excise Tax applicable to the comparable new replacement tire at the time of adjustment. If the price of the comparable tire is $400.00, the cost to you would be $200.00 plus Federal Excise Tax, mounting, balancing and any other applicable taxes.

- Your Double Coin TBR tires have been used only on the vehicle on which they were originally installed according to the vehicle manufacturers basic construction and quality with a different sidewall or tread configuration. If a higher priced tire is accepted as replacement, the difference in price will be at an additional charge to you. Any replacement service except as noted above.

- No replacement service except as noted above.

- Any tire, no matter how well constructed, may fail in service or otherwise become unserviceable due to conditions beyond the control of the manufacturer. Under no circumstances is this a representation that a tire failure cannot occur. This warranty gives you specific legal rights, and you may have other rights that vary from state to state. This limited warranty is applicable only in the United States, Canada, Mexico, and Central America.

- The defective Double Coin tire must be replaced with a comparable new Double Coin tire by an authorized Double Coin TBR tire dealer.

WHAT IS COVERED UNDER THIS WARRANTY AND HOW LONG

50% FREE REPLACEMENT WARRANTY
If any Double Coin TBR tire covered by this warranty becomes unserviceable due to a defect in workmanship or material during the first 50% of the original tread life (calculated by subtracting one-half the difference between the original new tire tread depth and 2/32” from the original new tire tread depth), then Double Coin will reimburse the cost of a replacement Double Coin TBR tire to you, plus the cost of mounting and balancing as follows:

- Costs of mounting and balancing will be refunded up to a maximum of $16.00 per tire.
- Applicable taxes and fees will be the responsibility of the owner of the vehicle.
- 50% free replacement applies to first quality tires only. Blemished, Non-Adjustable (stamped on tire), retreads or road hazard tires are specifically excluded.
- PRORATED TIRE REPLACEMENT
Double Coin TBR tires covered by this warranty that become unserviceable due to a defect in workmanship or material during the first 50% of the original tread life (calculated by subtracting one-half the difference between the original new tire tread depth and 2/32” from the original new tire tread depth), then Double Coin will reimburse the cost of a replacement Double Coin TBR tire to you, plus the cost of mounting and balancing, taxes and fees.

HOW TO CALCULATE THE PRORATED AMOUNT
The replacement price will be calculated by multiplying the current Double Coin “predetermined price for adjustment” or “advertised selling price at the adjustment location” (whichever is lower) by the percentage of usable original tread that has been worn off at the time of adjustment. You pay for mounting, balancing, and amount equal to the full current Federal Excise Tax and any other applicable taxes and fees for the comparable new Double Coin replacement tire at the time of adjustment.

PRORATED REMBURSEMENT EXAMPLE
If your disabled tire had an original 7/32” of usable tread depth and is worn to 1/32” of usable tread remaining you have used 50% and therefore must pay 50% of the predetermined price for adjustment or advertised selling price of a comparable tire, plus an amount equal to the full current Federal Excise Tax applicable to the comparable new replacement tire at the time of adjustment. If the price of the comparable tire is $400.00, the cost to you would be $200.00 plus Federal Excise Tax, mounting, balancing and any other applicable taxes.

DEFINITION OF A COMPARABLE TIRE
A “comparable” new Double Coin tire may either be the same line of tire or, in the event that the same line is not available, a tire of a similar tread configuration. If a higher priced tire is accepted as replacement, the difference in price will be at an additional charge to you. Any replacement service except as noted above.

YOUR LEGAL RIGHTS
Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. No representative or dealer has authority to make any representation, promise, or agreement on behalf of Double Coin, except as stated herein. Any tire, no matter how well constructed, may fail in service or otherwise become unserviceable due to conditions beyond the control of the manufacturer. Under no circumstances is this a representation that a tire failure cannot occur. This warranty gives you specific legal rights, and you may have other rights that vary from state to state. This limited warranty is applicable only in the United States, Canada, Mexico and Central America.

END OF WARRANTY
A tire has delivered its full original tread life and the new tire coverage ends when the tread wear indicators become visible or 5 years from the date of manufacture as indicated by the DOT or the date of purchase (proof of purchase required is the customers invoice).

SAFETY WARNINGS
Serious injury or property damage may result from:
- TIRE FAILURE DUE TO UNDERINFLATION/ OVERLOADING. Follow the owner’s manual or tire placard in vehicle.
- TIRE FAILURE DUE TO EXCESSIVE HIGH SPEED. Follow the owner’s manual or tire placard in vehicle.
- EXPLOSION OF TIRE/INM ASSEMBLY DUE TO IMPROPER MOUNTING. Only specially trained persons should mount tires.
- FAILURE TO MOUNT RADIAL TIRES ON APPROVED RIMS
- FAILURE TO DEFLECT SINGLE OR DUAL ASSEMBLIES COMPLETELY BEFORE DISMOUNTING.
- TIRE SPINNING. On slippery surfaces such as snow, mud, ice, etc., do not spin tires in excess of 35 mph (55 kph), as indicated on the speedometer. Personal injury and severe damage may result from excessive wheel spinning, including tire disintegration or axle failure.
